

Drinks List 2019

Order your drinks with us to keep your day as stress free as possible! We also sell our alcoholic drinks on a sale or return basis (conditions apply) & are happy to advise you on how much you might need. The prices include VAT (where applicable) without full service

We believe in choosing the best quality you can get for a price that is still reasonable for a larger event. Our events drinks list includes our favourite choices at the best prices from our local brewery as well as French & Italian vineyards.

Our Beers

All of our beers are supplied by Canopy Beer, a microbrewery who we are lucky enough to have as our neighbours (well, almost - we can carry a keg from them to our door!). They brew three times a week & they have an ever-changing roster of beers alongside their core stalwarts of Brockwell IPA, Milkwood Amber & Ruskin Wheat Beer. Just ask our events team for the beers that will be available on the date of your event.

Soft Drinks

Whether it's for a simple business lunch or a evening event where you are looking to impress we would be happy to provide you with a soft drink option. Please note that we only deliver soft drinks along with a food or wine order. For a budget friendly option we can provide orange, apple juice (200ml per person) & mineral water, along with disposable cups from £1 per person. If your event involves us collecting from you (our serving dishware for example) then instead of mineral water, we can provide glassware, and jugs to serve tap water.

For a wider, more luxurious selection we can supply:

Andros Fresh Orange juice (1l, not from concentrate)	£3.50
San Pelligrino sparkling mineral water (75cl) and Evian still mineral water (1l)	£1.95
Individual orange, lemon and grapefruit San Pelligrino cans (33cl)	£1.90
Elderflower presse (75cl)	£3.50

For a larger event we would recommend a selection of sparkling and still water, fresh orange & elderflower pressé. We can supply a selection for £1.50 per person along with disposable cups.
